## **Vendor Details**

### **NexSys**

**Service:** Hardware Procurement

**Description:** NexSys specializes in sourcing and supplying hardware products. This can include IT equipment such as laptops, desktops, servers, networking devices, as well as office hardware like printers, projectors, and possibly event-related items such as trophies or custom hardware for workshops.

### **BlueWorks**

**Service:** Software Licensing

**Description:** BlueWorks provides software licensing solutions. Their offerings likely cover enterprise software packages, productivity suites, security software, and cloud-based applications. They help organizations acquire, manage, and renew licenses for various software products.

### **UrbanSupply**

**Service:** Cloud Services

**Description:** UrbanSupply delivers cloud-based solutions, which may include cloud storage, virtual servers, SaaS platforms, and managed cloud infrastructure. Their services support digital transformation, data backup, and scalable IT operations.

### **PrimeSolutions**

**Service:** Managed IT Support

**Description:** PrimeSolutions offers managed IT support services. This typically involves helpdesk support, remote monitoring, on-site troubleshooting, maintenance of IT systems, and proactive management of networks and devices to ensure business continuity.

### **VistaDynamics**

**Service:** Consulting

**Description:** VistaDynamics provides consulting services, likely in areas such as IT strategy, digital transformation, process optimization, and technology adoption. They may also offer advisory services for project management and business process improvement.

### **SilverPartners**

**Service:** Training

**Description:** SilverPartners specializes in training services, which could include technical workshops, software training, professional development courses, and certification programs for staff to enhance their skills and knowledge.

**ZenGlobal**

**Service:** Auditing

**Description:** ZenGlobal offers auditing services, which may cover financial audits, IT security audits, compliance assessments, and operational reviews to ensure regulatory adherence and process integrity.

**ApexNetworks**

**Service:** Cleaning

**Description:** ApexNetworks provides cleaning services, likely for office environments, event venues, and facilities. Their offerings may include regular janitorial services, deep cleaning, and specialized cleaning for IT equipment or sensitive areas.

**NovaConsulting**

**Service:** HVAC

**Description:** NovaConsulting specializes in HVAC (Heating, Ventilation, and Air Conditioning) services. This includes installation, maintenance, and repair of climate control systems for offices, data centers, and event spaces.

**QuantumServices**

**Service:** Electrical

**Description:** QuantumServices delivers electrical services, such as wiring, installation of lighting and power systems, electrical maintenance, and troubleshooting for commercial and event facilities.

**Goodbites**

Goodbites specializes in food and beverage services, catering to corporate events, office pantries, and special functions. Their offerings include buffet setups, snack boxes, beverage stations, and custom menu planning for both small meetings and large-scale events.

Goodbites is known for its flexible menu options, timely delivery, and ability to accommodate dietary requirements, making them a reliable partner for event catering and daily office needs.

**EventCo**

EventCo provides comprehensive event planning services, covering everything from conceptualization to execution. Their services include venue sourcing, event logistics, vendor coordination, and on-site management for corporate functions, workshops, and celebrations. EventCo is experienced in handling both physical and hybrid events, offering creative solutions for décor, entertainment, and attendee engagement to ensure seamless and memorable experiences.
